

## TONY CUTSURIES JOINS OUTERLIMITS

Outerlimits Offshore Powerboats of Bristol, RI, has recently announced the appointment of Tony Cutsuries to sales and marketing manager. With an extensive background in the marine industry, Cutsuries' most recent position was at Fountain Powerboats of Washington, NC, where he was working in factory sales and later as a sales representative.

"I really thrive on working in the high-performance custom boat market," says Cutsuries. "Working in this segment of the industry allows the opportunity for a sales person to bond and work closer with customers. I am really looking forward to this opportunity and working with the Outerlimits team."

A specialist in Outerlimits roles, Cutsuries is a strong advocate for poker runs and the growth of sport boating in North America. He has also worked closely with Poker Runs America in the development of the famous Cleveland Rocks Poker Run on Lake Erie. Cutsuries' previous work experience also includes sales positions for Lake Cumberland Marine of Somerset, KY as well as National Marine.
