## **Outerlimits Offshore Powerboats Introduces The New 42 GTX Quarter Canopy**

Miami, FL – February 14, 2002 - Outerlimits Offshore Powerboats introduces their new 42 GTX, a low profile, quarter canopy V-bottom, at the Miami International Boat Show. The 42 GTX, which has been designed strictly with the go-fast, thrill seeker in mind, is both advanced and high tech. This is a special boat that will intrigue the person who takes his poker runs seriously.

The 42 GTX, which is a serious go-fast boat, is the ultimate in fast v-bottoms. It has a low profile for less wind resistance and is light in weight. The cockpit houses five race-type sit-down bolster buckets. This not only gives the occupants a more secure feeling, but is also easier to drive through the rough waters. The boat has dual helms for either single or two person operation and incorporates a futuristic, high tech dash that is quite unique.

The 42 GTX, with its active hull ventilation system, comes standard with twin staggered engines. Shown with staggered twin Merc 900 SCs, the 42 GTX will be on display in the Mercury Marine slip # 212.

Outerlimits Offshore Powerboats, founded in 1993, fills a unique niche in the offshore high performance industry by delivering custom, made to order powerboats for select clientele. Each boat is loaded with all the amenities the imagination can conjure up, built to the customer's exact specification by European craftsmen. Outerlimits Offshore Powerboats strives to provide the ultimate in high performance pleasure boats for the elite customer, who expects excellence in every aspect of boating. For further information on the 42 GTX or the complete line of boats that they offer, contact Outerlimits Offshore Powerboats, 47 Gooding Avenue, Bristol, RI 02809, (401) 253-7300.
