Outerlimits Offshore Powerboats Unveils New 51 Quad Step Sport Yacht

Bristol, RI – November 2, 2001 – New for 2002, Outerlimits Offshore Powerboats unveiled their new 51’ Quad Step Sport Yacht at this year’s Ft. Lauderdale International Boat Show. With the incredible performance of an offshore race boat and the luxurious appointments of a yacht, the 51 Sport Yacht extends the boundaries of design and performance. Outerlimits incorporated their quad step hull design along with numerous lavish details and amenities to deliver the ultimate in speed, style, and luxury.

The 51 Sport Yacht that was exhibited at the show was extraordinarily impressive – long, sleek and classy. The 51 Sport Yacht boasts two cabins; a main and a forward stateroom. Notable details in the main cabin are leather lounge seating, ultra-suede valances, a galley with sink and cooler, Corian counters, a large head with porcelain toilet and shower, hanging locker, removable carved carpet, stereo CD system, and a 15” flat screen LCD TV and DVD system. The forward stateroom includes a custom bed, vanity with sink, closet, roll up soft door, stereo CD system and a retractable flat screen LCD TV and DVD system. Both cabins are appointed with ostrich skin and leather accents, wood faced cabinets, and direct and indirect lighting, all of which gives a feeling of true luxury. Other features include dual zone air conditioning and heat, a 5 kW generator, integrated swim platform, 2 door platform storage, two molded flush deck hatches and hydraulic engine hatch.

The cockpit has two bolsters side by side with drop out bottoms, bench aft seat, Gaffrig monster gauges mounted in a custom silk-screened aluminum dash plate, removable carpet, CD stereo system, and padded engine hatch. Powered by three Mercury Racing HP575SCI engines with 575 HP each, the 51 Sport Yacht approaches speeds of 90 MPH.

The boat has been built to take on the roughest sea conditions. There are twelve stringers, full length side stringers, and fourteen traverse bulkheads providing solid strength. The deck sides and hull are foam cored, vacuum bagged, and construction continues with full vinylester laminate and bi & tri axle flat weave e-glass. All of this gives the owner the feeling of real off shore confidence. A 9’3” beam and headroom of 6’2” provides plenty of room, making the 51 Sport Yacht feel as good as it looks.

The attention to detail is evident with the flawless fit and finish throughout the entire boat. And of course, the outrageous graphics that Outerlimits is known for immediately catches the eye. There's no doubt that owners will have to get used to the attention they will get with this craft.

Outerlimits Offshore Powerboats, founded in 1993, fills a unique niche in the offshore high performance industry by delivering custom, made to order powerboats for select clientele. Each boat is loaded with all the amenities the imagination can conjure up, built to the customer's exact specification by European craftsmen. Outerlimits Offshore Powerboats strives to provide the ultimate in high performance pleasure boats for the elite customer, who expects excellence in every aspect of boating. For further information on the 51 Quad Step Sport Yacht or the complete line of boats that they offer, contact Outerlimits Offshore Powerboats, 47 Gooding Avenue, Bristol, RI 02809 (401) 253-7300.
