“FOR IMMEDIATE RELEASE”

October 14, 2003

World’s Official Fastest V-Bottom

Washington, North Carolina - October 3, 2003 –APRA Poker Run Time Trials. At the APRA Poker Run Time Trial, Bob Russell and Mike Fiore were officially clocked through a kilo course at 149.7 MPH, making this the fastest V-Bottom speed ever recorded.

The new record-holding boat was the OUTERLIMITS 42 GTX “*Can You Hear Me Now*”, powered by twin Sterling 1480 hp Poker Run engines through Mercury Racing SSM VI Drives, pushed by HERING six blade propellers.

What makes this record even more amazing is the fact that “*Can You Hear Me Now*” is Bob Russell’s open cockpit pleasure boat, which him and his wife Sonja use for cruising and poker runs. A canopied race boat held the previous record.

For further information, contact Outerlimits Offshore Powerboats, 91 Broad Common Rd, Bristol, RI 02809 (401) 253-7300 or visit their website www.outerlimitspowerboats.com.
